

# Solopol® **GFX™** Dispenser

## PRODUCT DESCRIPTION

Unique, patented 3.25 litre sealed cartridge dispenser for exclusive use with Solopol® GFX™ in industrial workplaces.

## USAGE

For exclusive use with Solopol® GFX™ cartridges to form part of a tailored 3-step skin care programme for industrial workplaces.

## METHOD OF USE

Push the large button fully to dispense a controlled dose of product appropriate for the application required. Empty cartridges are easily replaced in seconds.

FEATURES	BENEFITS
<b>Durable design</b>	Manufactured from durable plastic components and rigorously tested for high usage environments, providing assurance of quality and long-term cost efficiency.  Dispensers are <b>guaranteed for life</b> against normal wear and tear.
<b>Large push button</b>	Minimise the operation force required to allow easy use by hand or elbows.
<b>Fixed product dose</b>	A full push of the button delivers the exact amount required, controlling usage and reducing waste.  Discourages unnecessary 'jabbing' and product overuse.
<b>BioCote® protected button</b>	BioCote® antimicrobial protection technology is incorporated at the time of manufacture into the plastic button, the primary contact point. BioCote® technology provides life-long antimicrobial protection to inhibit the growth of a broad spectrum of bacteria and moulds that could potentially cause illness.
<b>Food safe</b>	The Solopol® GFX™ product has been independently tested and found not to have the potential to taint food or cause any adverse toxicological effects. Both the product and dispenser are certified by HACCP International.
<b>Colour Coding</b>	Colour coded to integrate with Deb's 3-step skin care programme.
<b>Sight Glass</b>	Provides visibility of the level of product in the cartridge to identify when product needs replacing.
<b>Unique locking mechanism</b>	Helps prevent unauthorised access, pilferage and product contamination.
<b>Hygienic, airless cartridge</b>	The ultrasonically sealed cartridge and pump mechanisms prevent the ingress of air into the cartridge during use to help prevent product contamination and ensure 'fresh' product is dispensed every time.
<b>Minimal waste</b>	The air-tight cartridges are designed to collapse to minimise product waste.
<b>Simple cartridge replacement</b>	The exclusive Solopol® GFX™ cartridges can be replaced in seconds, reducing maintenance time and costs.
