Description of first aid measures

Inhalation IF INHALED: Remove person to fresh air and keep

comfortable for breathing. Call a POISON CENTER/doctor if

you feel unwell.

Skin Contact After contact with skin, wash immediately with plenty of

soap and water.

Eye Contact IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue

rinsing. If eye irritation persists: Get medical

advice/attention.

Unlikely route of exposure. IF SWALLOWED: Rinse mouth. Inaestion

Most important symptoms and effects, both May cause drowsiness or dizziness. acute and delayed

Causes serious eye irritation.

Repeated exposure may cause skin dryness or cracking.

Indication of any immediate medical attention Unlikely to be required but if necessary treat

and special treatment needed symptomatically.

SECTION 5: FIRE-FIGHTING MEASURES

Pressurised container: May burst if heated.

5.1 **Extinguishing Media**

Suitable Extinguishing Media

In case of fire: Use water spray, dry powder or carbon

dioxide to extinguish. Do not use water jet.

Unsuitable Extinguishing Media

5.2 Special hazards arising from the substance or mixture

Heating may cause pressure rise with risk of bursting.

5.3 Advice for fire-fighters Fire fighters should wear complete protective clothing including self-contained breathing apparatus. If it is safe to do so, containers should be removed from fire area because they are likely to rupture under fire conditions. Keep fire exposed containers cool by spraying with water.
